Tuition = \$1900  
(\$100 discount)

Tuition paid  
monthly –  
Tuition is \$167  
per month.

Total  
Tuition = \$2000.

## 2017 NLP Practitioner Training Program

**Neurolinguistic Programming (NLP)** is the art and science for how to bring out the best in yourself and others. NLP provides tools and skills to develop states of personal excellence, and also establishes a system of empowering beliefs and assumptions about what human beings are, what communication is and what the process of change is all about.

At another level, NLP is about self-discovery – exploring one’s identity and mission. It provides a framework for understanding and relating to the ‘transcendent’ aspects of human experience that reaches beyond us as individuals to our family, community and global systems. NLP is not only about competence and excellence, it is about wisdom and vision.

**The Lighthouse Center NLP Practitioner Program** is a year-long, skill-based training program where you will learn the NLP principles, practices and processes to create positive changes in yourself and others. The NLP Practitioner Program is ideal for:

- **Professionals** who want to increase their personal effectiveness, communication skills and leadership skills.
- **Change-workers** such as counselors, therapists, energy workers, body workers, etc. NLP is an ideal set of models and skill sets to enhance and enrich the methods you’re already using.
- **Individuals** who are interested in personal growth, transformation and conscious evolution, there will be many opportunities to transform limitations into sources of strength, wisdom and resilience.

Classes will generally meet monthly on Saturdays from 9:00 a.m. to 5:00 p.m. for approximately one year. Location will be announced and may vary depending on availability.

We accept cash, check, credit/debit card and Paypal payment methods.
